

AUSblue

the Australian AdBlue® solution

AUSblue are proud to maintain VDA certification, with a 100% pass at both re-certification audits. The new VDA certification does not include VDA watermarks so we encourage our prospective customers to check the full list of certified suppliers on the VDA website to ensure a supplier meets AdBlue® manufacturing guidelines when comparing offers. A link to the site and copies of our VDA and ISO Certifications are below.

<https://www.vda.de/en/topics/innovation-and-technology/ad-blue/AdBlue-brand-list-and-licensees-list.html>

Manufacturing to the VDA AdBlue® guidelines ensures we meet all requirements of ISO 22241 certification:

- * ISO 22241-1 (Quality Requirements)
- * ISO 22241-2 (Test Methods)
- * ISO 22241-3 (Handling, transportation and storing)
- * ISO 22241-4 (Refilling Interface)
